

EUROPEAN UNION

**Think brilliantly,
live beautifully,
learn fully.**

Photo: Jurij Pelc

Dear students,

Today's world, and especially the future, needs well-educated and resourceful individuals who will operate in an international environment. Slovenia, with its geographical position and cultural diversity, is an ideal environment for **studying in the European Union**, offering high professionalism in English-language programs, connections with universities around the world, and pristine nature and safety.

Slovenia is not only one of the most friendly and affordable countries for studying in the European Union, but also culturally rich, as it lies between Western, Central, and Southern Europe. About 17% of the population in Slovenia are foreigners, with around 30,000 coming from Albania, Kosovo, and North Macedonia. Strong ties connect us with the Balkans—cultural, economic, and familial—making it easy to feel at home in Slovenia.

We would like to invite you to **a presentation of the diverse opportunities for studying and living in Slovenia**, which we will organize

On Friday, October 10th, at 1 pm

at the **Slovenian Embassy in Tirana**, Rruga Skënderbeg Nr. 21/1, Tirana 1000, Albania.

You are cordially invited to join us at this exciting event, where all major Slovenian universities will be presented.

Registration for the event is mandatory via the following link:
<https://ankete.cmeplus.si/index.php/556197?lang=en>

We look forward to your visit!
