# National School for Water and Environmental Engineering Strasbourg

**ENGEES**  
L'école de l'eau et de l'environnement

<https://engees.unistra.fr/en/>

**Strasbourg** is ranked among the **top 3 cities** in France for living and studying!

1h50 hours away from Paris by train

See more of Europe! Close proximity to other countries : Germany, Switzerland, Luxembourg, Belgium...

Home to major European Institutions like the **Council of Europe** and the **European Parliament**

**Why study in Strasbourg ?** → [10 reasons why](#)

ENGEES is located in the historic building of the « **Manufacture des Tabacs** », in the dynamic and charming neighbourhood of **La Krutenau**

📍 [1 cour des cigarières, 67000 Strasbourg](#)

→ Discover the neighbourhood [here](#)

Close to the University of Strasbourg's main campus and the city center, ENGEES is easily accessible by bike and public transports

# Facts & figures

A dynamic, small-scale “Grande École”:

🌿 500 students

🌿 4 research units (iCube, ITES, SAGE, LIVE)

🌿 An institution committed to sustainability and social responsibility

**ENGEES trains engineers in the fields of urban hydraulics, water treatment, waste management, hydrosystems management, management of water network services/systems and ecology/ecological engineering**

# Studying at ENGEES

## ENGEES engineering degree

*Developing sustainable solutions to face water and environmental challenges*

 A professionally oriented programme with strong connections to companies and public institutions in the water and environmental fields

 A practical programme grounded in research

\* Specific partnerships

# Exchange semester

From Semester 5 to semester 9 : courses in French  
S9 : 6 specializations, of which 2 fully available in English

## Specializations

**Urban hydraulics:** mastering the hydrological aspects of drinking water networks, sewerage systems and canalized rivers.

**FULL ENGLISH**

**Water treatment:** global approach to water treatment (drinking water, wastewater).

**Waste management:** collecting, treatment and recycling of urban and industrial waste.

**Hydrosystems management:** managing surface and groundwater in natural or anthropised environment.

**FULL ENGLISH**

**Management of water network services and systems** (drinking water, wastewater)

**Ecology/ecological engineering:** restoration and protection of natural ecosystems.

## Course offer in English

- 🌿 Master level courses, offered in the autumn semester
- 🌿 Students must choose one full specialisation track (courses cannot be combined across tracks)

**Course detail:** <https://engees.unistra.fr/en/programmedesenseignements>

# Practical information

- **Academic calendar**

 <b>Autumn semester</b>	 <b>Spring semester</b>
From the beginning of September Until the end of January	From the beginning of February Until the end of June

- **Application deadlines**

<b>Autumn semester</b>	<b>Spring semester</b>
May 15th 2026	November 15th 2026

- **Language requirements**

 <b>French</b>	 <b>English</b>
B2 minimum	B2 minimum

**French as a foreign language courses** available throughout the semester (3 ECTS)

- **Accomodation**

ENGEES has a limited number of rooms in university residences. A request can be made during application. Assistance is provided for accommodation search.

# Student life

ENGEES has several student associations

From social events and sports to environmental and humanitarian projects, they bring ENGEES to life and offer the perfect way to meet people, gain hands-on experience and make the most of your time in Strasbourg.

As a student, you will have access to the University of Strasbourg's sports service, health services and libraries

**A team that's always here for you:**

- 🌿 A Welcome team including a buddy system
- 🌿 An academic service with an international students' referent
- 🌿 Available professors
- 🌿 An International Relations Department always here to help!
